Greetings fellow AEE Chapter members and supporters!

I hope your summer is off to a great start after a recent rainy period in central Texas. It has been a pretty exciting year so far for our Austin/San Antonio AEE Chapter. We had good turnouts to both the Toyota Manufacturing Facility and the Mission Solar Energy tour in San Antonio. In addition, A/SA AEE participated in the NFMT Exposition here at the Austin Convention Center last month, and we made good contacts with many industry trade organizations.

I want to thank Jim Borri and Brian Bowen of FirstFuel for speaking at our AEE lunch meeting on the latest innovations in use of energy data analytics to perform remote building energy efficiency evaluation. Today, we are seeing more and more consumers accessing their electricity usage and cost data through their home smart meters. And our state is fast becoming a leader in providing consumers direct access to their utility data. The energy savings potential stemming from energy information systems that analyze interval usage data is real and significant. In home, information feedback based on usage and cost data has been shown to lead to energy savings of 4% - 12%, while in commercial buildings, LBNL and NRDC found median energy savings of 13% - 17%.

I hope you can make the June meeting of the Austin/San Antonio AEE Chapter. Our speaker is Katie Rich, Director of Infrastructure Policy and Homeland Security at the Public Utility Commission of Texas. Ms. Rich will highlight the energy efficiency program by the 10 electric investor-owned utilities in Texas, and she will present the EM&V energy savings results since 2013. If you can make it out to our chapter meeting, be sure to check out our colorful new AEE banner which we will have at the meeting. If you like it, give your kudos to Miles Abernathy, our AEE historian, for doing the research and purchasing our new banner display. We plan to use the new banner to promote our AEE chapter and to conduct more outreach and networking events.

Finally, your membership in the Austin/San Antonio AEE Chapter is important. Your subscription renewal provides for participation in both the Austin/San Antonio Chapter and the National Association of the Association of Energy Engineers. If you have not renewed your
Katie Rich

Director, Infrastructure Policy and Homeland Security Coordinator
Public Utility Commission of Texas

Ms. Katie Rich has been with the Public Utility Commission of Texas for nearly ten years. She has served in her current role as a director for the past four years, managing areas such as energy efficiency, load forecasting, fuels, and emergency management. She currently serves as the contract administrator for the state’s EM&V contract. Ms. Rich has a Master of Public Service and Administration from Texas A&M University and a Bachelor of Arts from St. Edward’s University.

June Presentation

EM&V in Texas: The Efficient Way

The Public Utility Commission of Texas (PUCT) regulates the State’s electric, telecom, water, and wastewater utilities. The PUCT verifies energy and demand savings for over 130 programs across ten electric utilities. The Evaluation, Measurement, and Verification (EM&V) has been in effect since 2013. Join Ms. Rich as she presents the key successes of the EM&V program, the program focus and scope throughout the years, and realized savings and improvements.

Can't make it to the meeting??...not to worry....

At 11:45 am, please call in at: **1-218-339-7800**, participant access code **157500 #**

Participants please DO NOT PLACE PHONE ON HOLD (or we all will hear your music). It would be a good idea to MUTE your line after you get in. Please press * 6 to MUTE. When you want to talk, then UNMUTE by pressing * 6 again, and then you can talk. This will lower background noise on the conference line.

The web link is:
**https://hello.freeconference.com/conf/call/157500** (Google Chrome is the preferred browser for this application.)

Please insert your name and company when you are prompted.

If you attended remotely, please email Linda.Rickard@AustinEnergy.com to let her know you attended the web presentation. She will add your name to the roster.

Do you know of a technology or a tour that would be of interest to our chapter membership? The board of directors welcomes your ideas and thoughts. Our chapter is only as good as the membership makes it...it is your chapter, please participate and provide input into the selection of presentations and tours! If your recommendation is used...it’s good for a free lunch for you!

Contact Fred Yebra fred.yebra@cpa.texas.gov with your ideas!

Understanding Engineers...Take 6

How Many Technical Writers to Change a Light Bulb?

Q: How many Technical Writers does it take to change a light bulb?

A1: 100. Ten to do it, and 90 to write document number
Our Mission:

◊ Advance the professional careers and the common purposes of its members. Facilitate networking, social exchange and training.

◊ Present and discuss energy, environmental topics, and members’ ideas. Stay abreast of fast changing developments. Anticipate their future.

◊ Disseminate information to the trade and to the general public via meetings, publications, trade shows and presentations.

◊ Build an exciting, expanding chapter

◊ Cooperate with other AEE chapters and related organizations.

◊ Promote energy efficiency.
